About

Installed Extensions

ON

Activities Configurator

by rls1729

Configure the Activities Button and Panel appearance with the Activities Configurator Extension and Gnome Shell Extension Preferences Tool. Click the icon or text with the secondary mouse button to launch the Gnome Shell Extension Preferences Tool.

OFF

AlternateTab

by fmuellner

Substitute Alt-Tab with a window based switcher that does not group by application.

OFF

Applications Menu

by fmuellner

Add a category-based menu for applications.

OFF

AppMenu Regular Icons

by rockon999

Sets The AppMenu Icon To Regular Mode. Disables Symbolic Icons.

OFF

Auto Move Windows

by fmuellner

Move applications to specific workspaces when they create windows.

ON

Dash to Dock

by michele-g

A dock for the Gnome Shell. This extension moves the dash out of the overview transforming it in a dock for an easier launching of applications and a faster switching between windows and desktops. Side and bottom placement options are available.

OFF

Display Switcher

by lededrich

Switch between display modes using xRandr.

ON

fix-multi-monitors

by k1by_33

If you are using several monitor display with Gnome,

ON

Force Quit

by megh

Adds a force quit button which launches xkill.

OFF

Frippery Panel Favorites

by imperision

Add launchers for Favorites to the panel

ON

Gno-Menu

by Panackier

Gno-Menu is a traditional styled full featured Gnome-Shell apps menu, that aims to offer all the essentials in a simple uncluttered intuitive interface.

OFF

Launch

by iluxa777

Hide activities button and show all apps in an overview when clicking the 'Launch' button on the upper left corner. To disable top left hot corner use 'No Topleft Hot Corner' — <https://extensions.gnome.org/extension/118/no-topleft-hot-corner/>.

OFF

Launch new instance

by fmuellner

Always launch a new instance when clicking in the dash or the application view.

ON

Lock Keys

by kazimieras_vaina

Numlock & Capslock status on the panel

OFF

Native Window Placement

by fmuellner

Arrange windows in overview in a more compact way.

ON

No Topleft Hot Corner

by azuri

This extension disables the top left hot corners. You can still click on Activities or press the dedicated key to reach the overview. Since 3.8, should work with other extensions modifying the Activities button. On versions prior to 3.8, may not disable other hotcorners in multiscreen configurations and won't work on fallback/flashback mode.

OFF

Places Status Indicator

by fmuellner

Add a menu for quickly navigating places in the system.

ON

Removable Drive Menu

by fmuellner

A status menu for accessing and unmounting removable devices.

ON

Remove Accessibility

by lomegor

Remove the accessibility button from the top panel.

ON

Remove Dropdown Arrows

by mpeleinos

Removes the dropdown arrows which were introduced in Gnome 3.10 from the App Menu, System Menu, Input Menu, Access Menu, Places Menu, Applications Menu and any other extension that wants to add dropdown arrows.

OFF

Screenshot Window Sizer

by fmuellner

Resize windows for GNOME Software screenshots

ON

ShutdownTimer

by neumann

Shutdown your device after a specific time. This extension adds a submenu to the status area.

OFF

Simple Dock

by optimisme

Bottom dock

OFF

Simple net speed

by bilgnome

Simply showing network speed. Click to change mode

ON

Skype Integration

by chriss404

Integrated features: shell notifications, search provider for Skype contacts, top bar menu button indicating missed messages and current online presence. (Make sure you have Skype and D-Bus Python bindings installed)

ON

Sound Input & Output Device Chooser

by kqzhank

Shows a list of sound output and input devices (similar to gnome sound settings) in the status menu below the volume slider. Various active ports like HDMI , Speakers etc. of the same device are also displayed for selection

ON

User Themes

by fmuellner

Load shell themes from user directory.

OFF

Volume Mixer

by alexhofbauer

Applet allowing separate configuration of pulseaudio mixers.

OFF

Window List

by fmuellner

Display a window list at the bottom of the screen.

OFF

Window List Mod

by yagorpopo

Display a window list at the top of the screen.

OFF

windowNavigator

by fmuellner

Allow keyboard selection of windows and workspaces in overlay mode. <Ctrl>number selects a workspace, and <Alt>number selects a window.

OFF

Workspace Indicator

by fmuellner

Put an indicator on the panel signaling in which workspace you are, and give you the possibility of switching to another one.
